PROFESSIONAL SUMMARY

BCA student with hands-on experience in data analytics and business intelligence through an internship and independent projects. Skilled in analyzing complex datasets, developing interactive dashboards, and transforming data into actionable business insights using Python, SQL, Excel, and Power BI. Seeking a Data Analyst or Business Analyst role in FinTech, Analytics, or Technology to deliver data-driven solutions and support strategic decision-making.

INTERNSHIP EXPERIENCE

7Span Pvt. Ltd. | Ahmedabad, Gujarat *May 2025 – Jul 2025*

Summer Intern – Junior Data Analyst

- Analyzed and transformed e-commerce customer, order, payment, product, and review data using SQL and Microsoft Excel to evaluate business performance across 95K+ delivered orders, representing ₹15.42M+ in total transaction value.
- Developed an e-commerce customer and sales analytics solution to measure key business metrics, including an Average Order Value (AOV) of ₹159.85, a 4.16/5 customer satisfaction rating, and a 91.89% on-time delivery rate, supporting structured business reporting.
- Built interactive Excel dashboards using pivot tables, pivot charts, KPI cards, slicers, and dynamic visualizations to monitor revenue, order trends, customer behavior, payment patterns, delivery performance, and product sales.

PROJECTS

Digital Payment Transaction Analytics & Fraud Monitoring | Python, SQL, Power BI *Jul 2026 – Aug 2026*

- Analyzed 6.36M+ transactions from a large-scale synthetic mobile-money dataset (PaySim), investigating $1.14T+ in simulated transaction value using Python and SQL to identify 8,213 fraud cases totaling $12.06B+, a 0.13% fraud rate concentrated entirely in transfer and cash_out transactions with transfers showing 4.2× the fraud incidence of cash_outs.
- Assessed the dataset's built-in flagging mechanism, which flagged only 16 of 8,213 fraud cases (0.19% coverage), and developed a Power BI dashboard using KPI cards, drill-through reports, and slicers to monitor fraud distribution and transaction-type risk.

Loan Application & Credit Risk Analytics | Python, Power BI *May 2026 – Jun 2026*

- Evaluated 307K+ loan applications representing $184B+ in total credit value using Python for exploratory data analysis (EDA), identifying 24.8K+ applicants with repayment difficulties, an 8.07% repayment difficulty rate, and occupation segments with more than 2× the average risk rate.
- Designed a Power BI dashboard to segment applicants by credit risk, demographics, and financial profile, highlighting $13.8B+ in credit exposure associated with high-risk applicants for portfolio-level risk monitoring.

Customer Purchase Behavior & Sales Analytics | SQL, Excel *Sep 2025 – Oct 2025*

- Queried and cleaned 1.06M+ retail transaction records using SQL by removing duplicates, cancelled orders, negative quantities, and invalid prices; quantified £20.4M+ in revenue across 40K+ orders and 5.9K customers, with a 72% repeat purchase rate and an average order value of £511.
- Developed an Excel dashboard to evaluate product performance, sales trends, repeat purchases, and customer purchasing behavior across the cleaned retail dataset.

SKILLS

Technical: Python (Matplotlib, Pandas, NumPy), SQL (PostgreSQL, MySQL), Excel (VLOOKUP/XLOOKUP, conditional formatting, Dashboarding), Power BI (ETL process, DAX), HTML, CSS, JavaScript
Domain: Data Analytics, Business Intelligence, Data Visualization, Consumer Behavior Analysis, Business Reporting
Soft Skills: Leadership, Data Storytelling, Problem Solving, Public Speaking
Languages: English — Fluent | Hindi — Native | French — Beginner

CERTIFICATIONS & TRAINING

- **Harnessing the Power of Data with Power BI** — Microsoft / Coursera *May 2026*
- **Speed Up Data Analysis and Presentation Building** — Google / Coursera *Jan 2026*
- **MS Excel** — Microsoft / Simplilearn *Nov 2025*
- **Google Data Analytics Professional Certificate** — Google / Coursera *May 2025*

CO-CURRICULAR & LEADERSHIP

IEEE CHRIST University Student Branch, Bengaluru *Dec 2025*

Conference Volunteer – IEEE ICCIST 2025

- Contributed as a volunteer at IEEE ICCIST 2025 by assisting with event coordination, attendee registration, session management, and operational support.

EDUCATION

CHRIST (Deemed to be University), Bengaluru *Jul 2024 – May 2027 (Expected)*
Bachelor of Computer Applications | CGPA: 3.51/4.00 (Till Semester IV)

St. Paul's Sr. Sec. School, Beawar | CBSE *Class XII: Apr 2024 · Class X: Apr 2022*
Class XII — 91% | Class X — 77%
